Smarter Business Video Monitoring

powered by  **ALARM.COM**

A Better View of Your Business

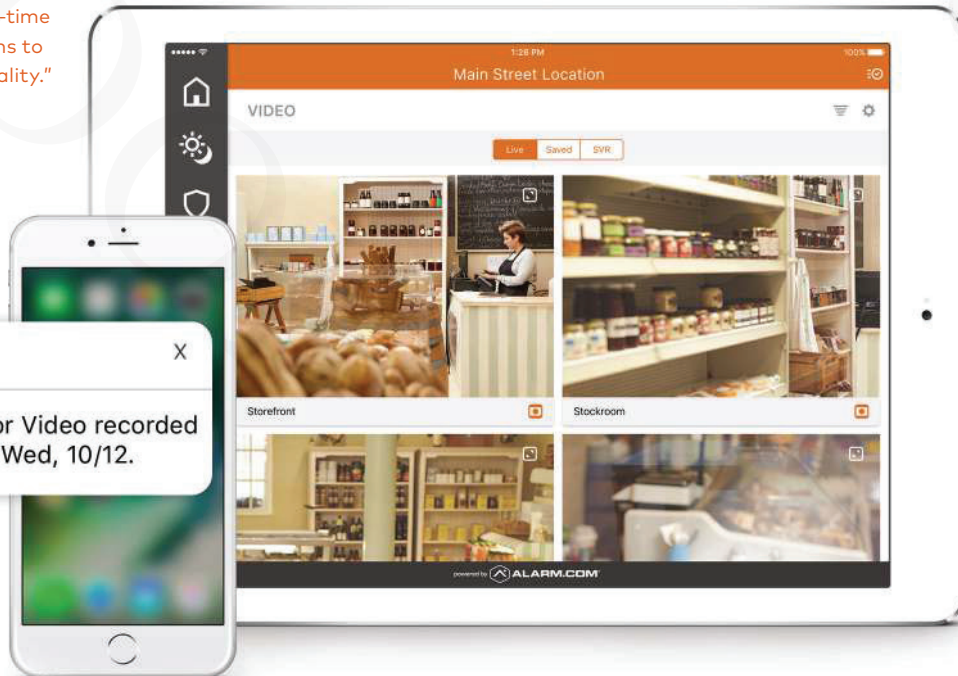

Flexibly address the video monitoring needs of your business with Smart Business Video Monitoring. Using a simple, intuitive mobile app, you can keep an eye on your business while also monitoring staff, equipment and inventory—for multiple locations no matter where you are.

"The hosted video solution gives me real-time visual feedback about store operations to improve our efficiency and service quality."

Main Street Location: Back Door Video recorded a new video clip at 3:41 AM on Wed, 10/12.

See Everything

Keep an eye on all of the important activity at your business. With single and multi-site viewing, live-streaming and recorded video, it's easy to monitor the key aspects of your business when you can't be there.

Reliable & Secure

Unlike traditional CCTV/DVR video surveillance systems, our solutions provide reliable, off-site storage that cannot be disabled by employees or damaged if your business experiences a fire or flood event.

Cloud-based Recording

Secure, 24/7 cloud recording options eliminate the need for additional hardware and enables access to live and recorded video clips.

The Right Cameras for Your Business

An extended line of compatible cameras is available and offers the perfect solution for larger property types or businesses that require numerous cameras.
